

ThermaXX Jacket: Cold

16 Hamilton St, West Haven, CT 06516 (203) 932-9639 info@thermaxxjackets.com thermaxxjackets.com

For Chilled Water and Cold Water Piping Components

- ✓ Energy Savings
- ✓ Safety
- ✓ Reduce Pipe Sweating

The ThermaXX Jacket (cold) is a removable insulation jacket that can be designed for dry or wet applications. The jacket is manufactured to insulate pipe components including but not limited to gate valves, globe valves, pumps, unions, flanges, Back Flow Preventers etc...

Temperature	Jacket Inside	Insulation	Jacket Outside	Anticipated Touch Temperature
60 ^f -70 ^f	EJ 1650	1" Needled Fiberglass	EJ 1650	73 ^f – 75 ^f
50 ^f – 59 ^f	EJ 1650	1.5" Needled Fiberglass	EJ 1650	73 ^f – 75 ^f
40 ^f – 49 ^f	EJ 1650	1.5" Needled Fiberglass + 10mm Pyrogel	EJ 1650	73 ^f – 75 ^f

Standard jacket color grey

Touch Temp is based on ambient of 75f and 3" pipe

10mm Pyrogel substituted for 1" of needled in wet areas
