

# Weathermaxx Covers

## For Actuators, Controls, and Moisture Sensitive Equipment

The Thermaxx Weathermaxx Cover is a heavy-duty, convenient, and cost-effective weatherproof protective cover designed to shield actuators, water valves, gas meters, water meters, electrical equipment, and other important outdoor components from the harsh elements.

The Weathermaxx Cover comes in a variety of standard sizes and configuration of common components and we can also manufacture custom Weathermaxx covers to fit any size or configuration.

Thermaxx Weathermaxx covers are:

- Waterproof
- Resistant to chemical and temperature exposure
- Flame retardant
- UV resistant

Use our online **Style Selector** to find the right Weathermaxx cover style for your component.

Cover Material	Thread	Strap	Resistance
<ul style="list-style-type: none"> <li>• Extra heavy-duty, 2x coated 1700 silicon cloth</li> <li>• 450°F max temperature</li> </ul>	<ul style="list-style-type: none"> <li>• Commercial size 92 Aramid with 35lb. break strength</li> <li>• 800°F max temperature</li> </ul>	<ul style="list-style-type: none"> <li>• Heavy-duty 1" Nylon</li> <li>• Stainless steel double D-rings</li> </ul>	<ul style="list-style-type: none"> <li>• Chemical, mold, and mildew resistant</li> <li>• Unaffected by UV light</li> </ul>

*Standard color is grey, other colors available upon request | High temperature covers available | Allow 1-2 weeks for Weathermaxx order to ship*
